

CROSS COUNTRY INVITATIONAL RESULTS

VOL: XLV No. 10

Invitationals thru -10/17/20

THE RATINGS::: This is the second set of CCIR RANKINGS for the 2020 Season. We have held off on the rankings this year, rankings that we have been doing since the 1980s. We were the first group to do Michigan High School Cross Country Rankings. At that time we assigned points for a team's place in invitationals along with the votes of a panel of coaches.

This year with restrictions on the meets being run and many to the "large" invitationals being cancelled we have dropped that part of the rankings. This year we are basing the ranking on the views of our panel. It has been much harder to compile a ranking.

This year with invitationals of over 7-10 teams drastically changes the information we could get on teams. The State Finals will be determined in a meet of 27+ teams. The strength of a team in a 7-10 meet field can change drastically in a meet with 27+ teams.

Some meets ran several races, the meet management then compiled a standings by putting the athletes in order by their times. This gives a little better look of how a team will do in a "larger" format meet but does not answer all of the questions. The regionals will only consist of 8 teams. So the Finals will be a completely unique meet especially when it will be run in 2 races. this makes it hard to evaluate teams, let alone rank them. Several teams have run only dual or quad meets.

Last Saturday the MHSAA had "pre-regionals." This still did not give a good look at teams since the meets were with only 6-8 teams. The Finals Meet will consist of 27+ teams, run over 2 races. A team can be real strong with a good top 3 in a meet with 6-8 teams. That is what the regional meet will be this Saturday. It is hard to evaluate teams for a meet with 27+ teams when the meets they are running are 6-8 teams.
